

CourthouseComputer.com Windows 7 Fix

Please print this page and distribute to all mainframe users using Windows 7.

1. Open Internet Explorer
2. Visit www.CourthouseComputer.com (please don't navigate, just stay on the home page.)
3. Click on Tools
4. Click on Internet Options
5. Click on Security TAB
6. Uncheck – Enabled Protected Mode (requires restarting Internet Explorer)
7. Highlight Trusted Sites
8. Click on Sites button
9. Click the Add button
10. Uncheck box – Require server verification (https:0
11. Click Close
12. Click OK

Close Internet Explorer and then Reopen. You must restart Internet Explorer for the changes to be effective.

If this does not fix your problem, there is probably a firewall issue which can be caused by 3rd Party Internet Security Software or a Hardware Device such as a Router.
